### HANNA'S HELPERS NAMED.

THE MEMBERS OF THE REPUBLI-CAN EXECUTIVE COMMITTEE.

Meeting Held in Hanna's Office to Plan the Campaign-Bureau System to Be Abolished -New York Headquarters on Madison Square-Larger Advisory Committee Now. CLEVELAND, July 13. Senator Hanna to-day

announced the names of members and officers Republican National Executive Com-Chairman; Henry C. Payne, Wisconsin, Vice-N. Bliss, New York, Treasurer; Joseph H. Manley, Maine: Richard C. Kerens, Missouri; Graeme Stewart, Illinois; Frederick 8. Gibbs, New York: Franklin Murphy, New Jersey; Harry S. New, Indiana; Nathan B. Scott, West Virginia.

In talking about his selections, Mr. Hanna said that he had been at work on the committee for months, and had made numerous shifts and changes before he had completed a slate that was satisfactory to the President. Mesers. Manley and Murphy were the only absentees when the meeting of the new Execuamittee began in the office of Senator Hanna in the Perry-Payne Building shortly before 11 A. M. to-day. Aside from the appointment of the committee itself the most important business transacted was the selection of New York headquarters. It was decided to lease the rooms in the Metropolitan Building in Madison Square. Mesers Scott, Gibbs and Murphy were appointed a committee to arrange for the opening of the New York headquarters.

Cornelius Bliss's acceptance of a place on the Executive Committee was not secured until Senator Hanna had agreed to appoint who will relieve Mr. Bitss of end of the campaign. Mr. Murphy owns the cottage at Elberon, N. J., where Senator Hanna will spend the summer. The remainder of the forenoon was devoted to the discussion of the Advisory Committee. In 1896 this committee was composed of twelve members only, but this auxiliary of the Executive Committee will be improved upon by the addition of about six more members. Each member will have

charge of certain territory and will be subject to the Executive Committee.

At 1:30 P. M. the committee adjourned for luncheon at the Union Club. At 3 P. M. its deliberations were resumed. At the afternoon session the committee decided to abandon the bureau system which was in vogue in the 1996 campaign. Then there was a Labor Bureau, a Bicycle Bureau, a Colored Race Bureau, a bureau for the Germans, and bureaus for many other classes of voters. This year the work that was done by the bureaus will be transacted by the State committees, and instead of attending so closely to details the National Committee will burden itself with the weighter affairs.

At the morning session, Col. Charles F. Dick was present and resigned his office as Secretary of the National Committee, and formally transferred his books and papers to his successor. The Executive Committee is authority for the statement that because of the expressed wish of President McKinley, Col. Dick has taken the State Chairmanship for Ohio. Refore adjourning, the committee delegated the authority to secure headquarters in Chicago to Messra. Payne and Stewart.

payne and Stewart.

A peculiar feature of the personnel of the new committee is that two members are from New York and two from Indiana. Gen. Dick laughed when it was intimated to him that perhaps the National Committee feared the result in Ohio. Asked what he thought of the reported heavy disaffection of the German vote in Ohio on account of imperialism and militarism Gen. Dick said:

"Thaven't had time to look up the report.

Dick said:
"I haven't had time to look up the report, but I don't imagine it is anything serious. The average German may be excited for a time, but he is all right on the question of sound money. When the sober second thought returns to him he'll come back all right to the Republican fold."

R. B. Snyder, Chairman of the Republican State Committee of Nebraska, had a conference with the committee in the afternoon. The committee, before it adjourned, an-nounced that Col. Myron T. Herrick had been chosen member of the National nounced that Col. Myron T. Herrick had been chosen member of the National Committee to succeed George B. Cox, resigned. Senator Hanna announced that the names of the members of the Advisory Committee would not be announced until all had been chosen. The selection of Messrs, Gibbs and Murphy was a surprise to those outside the confidences of the leaders. Mr. Murphy, who is in Europe, accepted his appointment by cable. Mr. Manley is confined to his home by a sprained knee.

The Committee adjourned to meet at call of the chairman. Senator Hanna will go to New York on July 20.

### INDIANA FOR M'KINLEY

Says Chairman Herniey of the Republican State Committee.

The Hon, Charles S. Hernley, chairman of the Republican State Committee of Indiana, was at the Hoffman House last night. He came to New York city on business matters. Chairman Hernley, however, had something to say about the political conditions in Indiana.

"Indiana," he said, "will be a battleground this year for the contending political parties. but McKinley and Roosevelt will carry the State by a large majority. The free coinage of silver at the dishonest ratio of 16 to 1 is not as popular now in Indiana as it was in 1896, and a large mafority of the Democrats who voted for McKinley 1896 will vote for him again this year." Chairman Hernley added:

"Patriotism and prosperity are prominent sues, and Indiana has grown to be very prosas and she always was patriotic copie love the old flag and have always fought o maintain the honor and dignity of the Stars and Stripes wherever they have been planted the people of the West do not believe in taking and Stripes wherever they have been planted The people of the West do not believe in taking any backward steps in our foreign policy, and they will sustain the McKinley Administration in this regard. Indiana has become a manufacturing State; since the discovery of natural gas factories have grown up in what is known as the gas belt and thousands of laboring men are employed and the population has grown very rapidly. The laboring people of our State are all employed at good wages and we have no strikes and they all seem to be happy and contented. The time used to be when there were more Democrats than Republicans in Indiana, but this is all changed, and we invite the Democrats to the contest this year feeling assured that we can beat them. The laboring people are not going to yote themselves into the poorhouse twice in eight years, and the large per cent of Democrats who voted for honest money in 1896 will yote for honest money again. We have a splendid organization of our party, and we feel sure of victory. The campaign will be most aggressive, as Indiana campaigns always are; but I feel very sure that we shall elect nine Congressmen and carry both branches of the Legislature. Our party throughout the State is harmonious and united."

#### A SET-BACK FOR COL. DADY. Mr. Appleton Wins a Point in Their Factional Warfare.

The warfare between Michael J. Dady and former Tax Collector R. Ross Appleton for control of the Republican organization in the First Assembly district in Brooklyn shows no satement during the hot weather. There was a lively skirmish between the forces of the rival statesmen on Thursday night over the naming of a ticket for the coming primary in the Fifth district of the First ward. the Fifth district of the First ward. Of the five members of the nominating committee, four reported a ticket composed exclusively of Dadyites, but, to the the astonishment of the Colonel and his friends, the ticket presented by the solitary committeeman, composed entirely of Appleton's supporters, was approved by a vote of 26 to 24. The result is believed to foreshadow the defeat of Dady at the primaries, as he is not now considered likely to carry a single district in the First ward.

Col. Dady was so anxious to win in the Fifth district that D. H. Ralston, his chief lieutenant. a couple of weeks ago moved temporarily from district that D. H. Raiston, his chief lieutenant, a couple of weeks ago moved temporarily from the Third to the First ward and established headquarters in the Hotel St. George, with a view to undermine Appleton's political props. In view of the bitter factional strife in which he is involved. Col. Dady, it is said, will probably decline the chairmanship of the Campaign Committee.

#### HENRY YOUNGE FOR M'KINLEY. One of Edward M. Shepard's Former Lieutenants Repudiates Bryan.

Former Assistant Corporation Counsel Henry Younge of Brooklyn, who was one of the mos active members of the Shepard D. mocracy, has active members of the Shepard D m erracy, has jeined Alexander E. Orr, Henry Hentz and many others of his independent associates in their opposition to the ticket nominated at Kansas City. He has also retired from the Brooklyn Democratic Club and the Young Men's Democratic Club and come out openly for McKinlew and Roosevet. He said.

"I wanted to vote the Democratic ticket, but I cannot stand for Bryan. Why, he is a Populist and the platform is revolutionary. I cannot stand for that, and I have made up my mind to vote for McKinley and Roosevelt. No third ticket or me."

Cockran, who sailed for Europe last Wednes-

take any active part in the Presidential campaign. He may even extend his trip to Europe to such length that he will not be in this country to vote. This news will be a great disap pointment to the friends of Col. Bryan, for they had expected that Mr. Cockmittee. The list is: Marcus A. Hanna, Ohio, ran would take an active part in the campaign and would assist them by Chairman; Perry S. Heath, Indiana, Secretary; speaking against the Administration. Mr. Cockran, was one of the most active Gold Democrats in 1896 and spoke at the big anti-Bryan massmeeting which was held in Madison Square Garden to offset the effect of the Bryan notification meeting. Mr. Cockran was active in the campaign which followed. Last spring, however, he announced that his opposition to "imperialism" was so strong that he would support Bryan rather than McKinley. The Bryanite were much delighted and fully expected that he would make one or more speeches during the day that he would take no part in the campaign even if he did return in time. Mr. Cockran's attitude is said to be due to the reaffirmation of the 16 to 1 threat in the Democratic

platform The Bryanites in this town have also been comforting themselves by saying to each other that ex-Comptroller Ashbel P. Fitch, the President of the Trust Company of America, who was Comptroller in Mayor Strong's administration, was going to be with them this year. Mr Fitch set these stories at rest vesterday. He said:

that I might support Bryan and in others that part of the duties of managing the financial I was undecided as to how I would vote. The only point on which I am undecided is how best to insure the defeat of Bryan and the principles he represents. When I decide which is the better way to bring about that result, I shall sail in and do all I can to insure the defeat of Mr. Bryan. I am unalterably opposed to his election and to the principles of the platform on which he is a candidate, and shall do all in my power to bring about the defeat of both The only question for Sound Money Democrats or real Democrats to consider at this time is. Will it be better to vote directly for McKinley or put up a third ticket to hold wavering mem bers of the party who cannot make up their minds to vote for a Republican? I believe that the men who in 1896 were classed as Gold Democrats, at least those in New York, will, after some profanity, vote for McKinley this year. I do not think that a third ticket will be neces-

#### CITIZENS' UNION TAKES A REST. But Next Year Will Go In for an All-Round Anti-Tammany Combine.

Secretary Thomas A. Fulton of the Citizens' Union said yesterday that no part would be taken in the campaign this fall by his organization, and that the men in it were now devoting themselves to an effort to complete their organization so that at the close of the Presidential campaign it will be in shape to begin work on the municipal contest of next year. He said:

"I am convinced by what I hear not only from members of the Citizens' Union, but from men in the Republican party and anti-Tammany Democrats, that there will be a Union ticket against the Tammany nominees next year which will have more than a fighting chance of success. There is a feeling on the part of all the men I have seen that we should all get together to fight Mr. Croker, and every one with whom I talk seem to be anxious to avoid a situation which would result in the division of the anti-Tammany forces. I do not think that any party is going into this campaign with a club in its hands, saying, 'This man shall you take and no other.' Harmony and unity are desired by all and will be obtained,"

#### GEN. HARRISON DIDN'T SAY IT. Interview With the Ex-President Saying Bryan Would Carry Indiana Declared a Pake.

INDIANAPOLIS, July 13.—The papers here have quoted an interview with former President Harrison which appeared in a Livingston, representing the ex-President as saying that there was much in the present campaign besides the silver question and that Bryan would carry Indiana. The Democrats have been quoting the interview and to-day the Rev. M. L. Haines, who accompanied Mr. Harrison on his Western trip, was asked what he thought of the interview. He declared that it was a take, saying that he was with Mr. Harrison all the time and that when he was approached by newspaper men he invariably refused to discuss politics and turned the converestion into other channels

### FREEDOM CLUB RATIFIES.

Addresses by Ex-Congressman Low, Alder man Goodman and Others.

The Freedom Republican Club of the Thirty second Assembly district held a rousing ratification meeting last night in its clubrooms at 1600 Lexington avenue, President John M. Reid in the chair. The principal speaker was former Congressman Philip B. Low.

"This campaign," he said, "Is to be one of patriotism and the stand of the Republican party on expansion will appeal to the sensible intelligent men of all political parties. I care not what the politics of a President might be; when it came to defending the Stars and Stripes against those who would seek to lower it in dis-honor and disgrace he would have my support. Every issue the Democratic party raises in this campaign will be met intelligently and thoroughly by the Republican party, which is willing to leave the facts to the judgment of the people."
Other speakers were Alderman Elias Good-man and B. H. Steele. The names of McKinley and Roos velt were greeted with great cheer

#### CLUBHOUSE NOT BIG ENOUGH. Central Republican Club Will Put on Another

The officers of the Central Republican Club of the Thirty-first Assembly District announced yesterday that their clubhouse at 101 West 127th street would immediately be enlarged o keep up with the requirements of the rapidly growing membership. One feature of the alterations will be the addition of an entire story. The big meeting room will also be enlarged. The club much of whose prosperity is due to the leadership of the Hon. Silas C. Croft, has a membership of about 1,000 and the members have planned a big housewarming to take place about Sept. 1.

#### GORMAN SEEMS LUKEWARM. Denies That He Is to He Active in the Bryan Campaign.

LAUREL, Md., July 13.-Former Senator Arthur P. Gorman denies emphatically the report that he intended to manage the Eastern end of the Bryan campaign. When seen at his country residence here in reference to the matter Mr.

residence here in reference to the matter Mr. Gorman said:

"I certainly have no such intentions. I have not heard anything of this sort suggested."

When a despatch from Lincoln, Neb., was shown him saying that overtures had been made to the former Senator looking to his appointment as manager of the Eastern end of the Democratic campaign Mr. Gorman said:

"It is all news to me. I am taking no part in managing campaigns. I did not do this in my own State last year or two years ago and I will not go into the business now. I shall support the ricket as I always do, but shall be a private in the ranks"

When asked what he thought of the platform the ex-Senator said:

"It is a well-written document. I am not discussing the subject, however, and do not know that I will do so."

JOHN JAY LENTZ WANTS COLUMBUS It became known yesterday that Bourke NAMED INSTEAD OF CHICAGO. Predicts That if Ohio Gets the Headquarters the day, would not return to this country in time to

> "Just as Easy" as if He Carried New York -Political Figures Through Lentz Glasses. LINCOLN, Neb., July 13.-Chicago is not to have it all her own way in the matter of national headquarters. Columbus, Ohio, has already appeared as a rival, and to-day a delegation from that city, headed by the redoubtable Congressman John J. Lentz, arrived and endeavored to enlist Mr. Bryan in active support of the plan. Mr. Lentz and his associates took dinner as Mr. Bryan's guests, along with National Committeeman Tarpy of California.

Mr. Lentz was very much in earnest, and very insistent in his belief that the locating of his headquarters at Columbus would be a factor in the election of Mr. Bryan. He told the Presidential nominee that he thought the Democrats had an excellent opportunity to win in Ohio this fail. He said:

"The one thing we have to do, and it is not such a very difficult task, is to organize the opposition to the Republican party, so that it may work harmoniously. Nash was elected Governor on the Republican ticket last fall with a minority vote of 58,000. Had the vote cast for Jones and McLean been united on one man, he would have been elected with an overwhelming majority. There is no reason why these two elements cannot be brought together this fall. There is nothing so conducive to effective work as enthusiasm, and the location of national headquarters at Columbus, the political centre of the State, will lend encouragement to our men. The national organi zation will be in touch with every sub-organization in the State, and the enthusiasm this would lend would be invaluable to the Demo-

cratic ticket in the State "The enthusiasm in Ohlo occasioned by the location of national headquarters there will be communicated to neighboring States and they are the ones on which you must depend for election. With the right kind of management you can carry Ohio, Indiana, Kentucky, West Virginia and Maryland. To carry all of them you would have to overcome less than in either Illinois or Wisconsin, and but little more than in either Michigan or Minnesota. Taking the vote of 1896, you will have to overcome but 48,000 in Ohio, 18,000 in Indiana, 12,000 in West Virginia and 280 in Kentucky. All of them have shown Democratic symptoms since that time, while Illinois, Michigan, Minnesota and Wisconsin have not. With these States, in addition to the ones carried in 1896, you can be elected, with its votes to spare in the Electoral College. Along these lines Mr. Lentz bombarded Mr. Bryan for the two hours they sat in the candidate's favorite nook on the porch. Mr. Bryan had received telegraphic notice of Mr. Lentz's coming, and had met him at the depot. Mr. Bryan questioned and talked, but he did not give Mr. Lentz's plan his sanction. Upon his advice Mr. Lentz hurrie i away this afternoon to Chicago, where he has an engagement with Chairman Jones to-morrow to talk over the same matter. Virginia and 280 in Kentucky. All of them have

advice Mr. Lentz Intrie I away this atternoon to Chicago, where he has an engagement with Chairman Jones to-morrow to talk over the same matter.

To The Sun correspondent Mr. Lentz scoffed at the idea advanced by Senator Lodge in his notification speech yesterday, that the money question could be forced to the front and made the paramount issue of the campaign.

"It's not only going to be imperialism," he said, "but it is imperialism. It is not what Lodge says, nor what I say, that makes any question the paramount issue—it is what the people say; and on the street corners, cars, everywhers you go, the one subject is imperialism. I consider Mr Bryan's chance for election much better this fall than four years ago. If the fightis conducted properly he can be elected without the aid of New York. I don't consider New York a possibility, nor do I think it wis, to spend much energy in States that gave a big Republican vote in 1898 and have not changed materially since. By locating the headquarters at Columbus, and making that a centre from which to radiate encouragement and enthusiasm to the debatable territory I have pointed out, the Democratic ticket will be victorious this fall.

"There is much dissatisfaction with the Republican party in Ohio. While McKinley and Hanna have made a few friends by their appointments, they have made more enemies because o the greater number of those who applied for positions and failed to get them. In not another State has the national committeeman of the party resigned, as did George Cox, two weeks after he had been forced to accent the position by Mark Hanna at Philadelphia. Judge Beautie, another prominent and influential figure in the party in years gone by, has come over to Bryan and is out in an interview in which he says that the action of the Pilladelphia convention, so far as the head of the ticket is concerned, was a civil fraud, and the nomination for second place a military fraud.

"These are elements that go to show the dissension in the opposition and the possibility for

sension in the opposition and the possibility for us if we take advantage of the situation."

#### NOTIFICATION AT INDIANAPOLIS. Democratic Leaders Meet to Plan for the

INDIANAPOLIS, July 18. A conference of the Democratic leaders was held here to-day for the purpose of making arrangements for the reception of Mr. Bryan and Mr. Stevenson when they come here Aug. 8 receive the notification of nomination, and committees on arrangement, on decoration of the hall, on hotel accommodations and on entertainment of the accommodations and on entertainment of the visitors were appointed. The State Committee has been advised that nearly all the members of the National Committee will be here on the o casion, and it is probable that a meeting of that body will be held in this city. Bryan and Stevenson will reach here the day before the notification is to take place, and Towne has been invited to be present, and is expected. The Committee on Railroads has been assured that the railroad companies will make a satisfactory rate for visitors, probably giving a round-trip rate for one and one-third fare.

### CALIFORNIA'S BOOM IN TRADE

Not Likely to Help the Democratic Party is

LINCOLN, Neb., July 13.-M. F. Tarpey National Committeeman from California, who visited Mr. Bryan to-day, did not bring very encouraging news. Mr. Tarpey was on his way home from the Kansas City convention. having gone by way of Chicago. He said the Democrate of California expected to put up a very lively fight and hoped to win, but he did not bank much on the outcome.

"You see," said he, "out in California there has been a big boom in trade because of the accession of colonies in the Philippines. At least \$2,000,000 a month comes into San Francisco in exchange for goods sent to the archi pelago. This naturally makes most of our merchants with goods to sell in favor of keep ing the islands. There is, however, a large part of the population who are opposed to the Administration because of its imperialistic tendencies and it is from these people we expect to get our votes. That is, in the coast cities with ocean-going trade the tendency is toward the Administration, while over the State it is against it because of the belief that we have no right to govern any one without consent. This State is normally Republican by about 15,000, but this year the conditions are abnormal and we hope to win because of

The press bureau and the speakers' bureau will also be established here. The reason for the change is said to be that the Populists have more hopes of Indiana than of Illinois and that, since the Democrats refused to nominate Towne for second place, there have been many accessions to the party in this State from the wing that went off to Bryan and Towne. State Committee has determined to nom-

Trilby was sleepy and cross, and when Mile. Dorina attempted to make him mount a stool he rebelled and showed his teeth. A smart blow with a whip made him furious, and he rushed savagely at Mile. His long claws tore her clothing from her and gashed her body. Her stout boots were split from the tops to the soles and wrenched away. WHEELING, W. Va., July 13 .- To effect the capture of men who shot and killed eighteenyear-old Clarence Warrick, while he was preventing a robbery at his home at Somerton, Ohio, on the night of April 8 last, Detective George McCoy of Chicago made of himself a tramp and beat his way over the West for two months and a half with a gang of criminals. To-day McCoy had the satisfaction of arresting on Ohio soil the alleged murderers. They are "Barney" Devine of Zanesville, Ohio, and John "Barney"Devine of Zanesville, Ohlo, and John Stevens, whose home is nowhere.

McCoy worked westward with several tramps as one of them, and found that a new organization of wanderers had been formed for the sole purpose of robbery. McCoy became one of them to all appearances. He found his men at St. Paul and became their boon companion. He proposed a trip through the East and when they reached Ohio arrests followed.

As a result of McCoy's discovery he promises to solve other crimes committed within the past few months in many parts of the country. When the Warrick murder occurred there was scarcely a clue to be obtained.

A farmer driving along the road from Stony Brook to St. James, L. I., a few days ago, was surprised by a sudden volley of stones and dirt hurled at him from behind a wall. He pulled up short and, whip in hand, vaulted the fence and discovered ten small boys, typical city urchins, who had been lying in ambush. He let out savagely with his whip and the howls of the youngsters brought to the scene a stylshly dressed young woman, who proved to be Miss Lillian Dunham. Miss Dunham is the daughter of James H. Dunham, senior member of the firm of James H. Dunham & Co. She takes an active part in Grace Church kindergarten work. She recently took a dozen girls from the slums to Long Island and placed them on a farm. #### TROUBLE FOR CAPT. WESTERVELT. Gen. McCoskry Butt's to Make It, but the Captain Says He Isn't Losing Sleep.

Brig.-Gen. McCrosky Butt, who is now in Europe, has written to the Police Commissioners, announcing that when he returns he intends to prefer charges against Capt. Josiah Westervelt of the Church street station. The letter does not state the grounds for the charges. Capt. Westervelt, however, said yesterday that the General was probably excited terday that the General was probably excited over an incident of the Decoration Day parade.

"I was in charge of the crossing at Fifth avenue and Twenty-third street the day of the parade," said Capt. Westervelt, "and as I have been in charge of the crossing at this point during every big parade for the last twenty years I consider that I know my business.

"When one section of the parade had passed one of my men told me that a physician in a cab wanted to drive across the avenue. I told him to let the doctor through. When the cab started across the street the officer in charge of the next section of the parade was fifty feet up the avenue. When the cab got two-thirds across the avenue this officer spotted it, and swinging his sword in the air he veiled. 'Stop it! Stop it! The officer, whom I did not know, urked his horse forward and got directly in front of the cab horse.

"'Drive around him,' I said to the doctor's coachman, and he did and got through. This angered the gold-braided chap on horseback and he said he would prefer charges against me. Later another man astride a horse deshed up and got my name. I suppose the first chap was Gen. Butt. The second man was probably one of his aides.

"Since then Butt has sent to me indirectly demanding a written apology. Did he get it? Well, I guess not. I'd see him further in blazes than a pigeon would fly in a month before I'd even give him a verbal apology under the ctroumstances. Doctors as a matter of courtesy are always allowed through the lines where they don't interfere with parades. Butt's threat to make charges against me wont cause me to lose any sleep." over an incident of the Decoration Day parade,
